

Delivery Service

From my kitchen to your table! The delivery service is for individuals who are on the go but still want to eat healthy delicious meals. Each month I carefully select a variety of entrees which are "made from scratch" using only the finest, seasonal and healthiest ingredients (all organic meats and mostly produce).

My meals typically include an entrée and one side dish. The portions are very generous, as I believe leftovers are great for lunches or snacks.

We offer an amazing variety of menus, with thousands of "tried and true" recipes to choose from. Finally, I am committed to using the highest quality ingredients and, often, organic products. We do most of our shopping at Whole Foods, Bristol Farms, Chino Farms, Trader Joes, Henry's, and The Fishery -- we think that is a necessity for healthy, delicious cuisine.

For packaging, I use foil containers or reusable plastic containers. All food is labeled for convenience and is accompanied by a menu with specific reheating instructions. Because the larger packages are more economical, clients often ask that I prepare some meals that are "freezer-friendly." Simply let me know, and I can do that for you.

This service is great for individuals who are busy and want to enjoy delicious home-cooked meals in their own home for a reasonable price. Additional servings are \$10, and side dishes, soups and salads can be added for an additional \$10.00.
